

Coronavirus (COVID-19) Information

Everyday Medical understand that the current circumstances may be stressful for our patients and their families. We are here to support our patients, local community and businesses in the coming months.

Be SAFE

Our practice is strictly following all guidelines for COVID-19 to keep our patients and staff safe. This includes extra cleaning of the facilities, hand hygiene and social distancing in the waiting room.

We encourage everyone to follow public health directions to limit spread of COVID-19 and protect the most vulnerable members of our community.

If you think you may be infectious in any way, please let our receptionist know prior to your appointment.

To help protect other vulnerable patients, you may prefer to wait outside or in your car before your appointment.

You may qualify for a telehealth consultation with our GP's to minimise your need to travel. (age 70+, immunocompromised, certain chronic health conditions, pregnant, newborn child) Please ask the receptionist if you think you may qualify.

Be INFORMED

During this time, we will continue to support you with up to date advice on COVID-19 on how to protect yourself and others.

We also recommend getting information from reputable sources as the situation is continually evolving.

Be KIND

Everyday Medical will continue to provide care and support you during these difficult times. We understand that this is a challenging time financially as well as medically for many people. Please let us know if you are suffering financial hardship due to COVID-19.
